PROFESSIONAL SUMMARY

I plan and run social media for brands in Pakistan, the UAE, the UK and Europe. Over four years I have managed 30 brands across six companies: two IT companies (IVY Interactive Solutions and TechVention in the UAE), a creative agency (Constantine PR), a marketing agency (Codistan Ventures), an Odoo Gold Partner (AnaConEx) and a property marketing firm (Blackwood Marketing).

My day-to-day work covers social strategy, content calendars, reels and captions, Meta and Google Ads support, SEO and blog content, influencer outreach and monthly reporting. I use AI tools including Claude, ChatGPT, Gemini, Google Flow and Midjourney for research, ideas, scripts and visuals, which roughly doubled creative output at IVY, and every piece still gets a human edit and brand check before it goes live.

CORE SKILLS

- **Social Media Management:** Social media strategy, content calendars, Instagram, Facebook, LinkedIn, community management, copywriting, caption writing, reel scripting, influencer marketing, personal branding
